Peer-reviewed publications

Six first-author peer-reviewed articles and two first-author preprints.

INSPIRE: 59 citations (36 excluding self-citations); h-index 4. As of 3 November 2026.

[1] Changkai Chen, Zhoujian Cao, and Jiliang Jing. Efficient and stable computation of gravitational-wave fluxes from generic Kerr orbits via a unified Heun-function framework. Physical Review D 114, 063002 (2026). DOI.

[2] Changkai Chen, Jiliang Jing, Zhoujian Cao, and Mengjie Wang. Complete quasinormal modes of type-D black holes. Physical Review D 112, 103036 (2025). DOI.

[3] Changkai Chen and Jiliang Jing. Gravitational wave fluxes on generic orbits in near-extreme Kerr spacetime: Higher spin and large eccentricity. Science China Physics, Mechanics & Astronomy 67, 110411 (2024). DOI.

[4] Changkai Chen and Jiliang Jing. Radiation fluxes of gravitational, electromagnetic, and scalar perturbations in type-D black holes: an exact approach. Journal of Cosmology and Astroparticle Physics 11 (2023) 070. DOI.

[5] Changkai Chen, Xiaohua Zhang, and Zhang Liu. A high-order compact finite difference scheme and precise integration method based on modified Hopf-Cole transformation for numerical simulation of n-dimensional Burgers' system. Applied Mathematics and Computation 372, 125009 (2020). DOI.

[6] Changkai Chen, Xiaohua Zhang, Zhang Liu, and Yage Zhang. A new high-order compact finite difference scheme based on precise integration method for the numerical simulation of parabolic equations. Advances in Difference Equations 2020, 15 (2020). DOI.

Preprints

[7] Changkai Chen, Xiaohua Zhang, Zhoujian Cao, Jiliang Jing, and Sheng Long. Complete total-transmission modes of Kerr black holes. arXiv:2609.39609 [gr-qc] (2026), preprint. arXiv.

[8] Changkai Chen, Xiaohua Zhang, Zhoujian Cao, and Jiliang Jing. Complete quasinormal modes of Type-D black holes. II. Extremal Kerr black holes. arXiv:2610.39095 [gr-qc] (2026), preprint. arXiv.
